Добавил в path в системные переменные среды

добавил SDK и tools в настройках андроид студии

Принял все лицензии для андроид командой flutter doctor --android-licenses

```
C:\Users\vladi>flutter doctor --android-licenses
Warning: This version only understands SDK XML versions up to 3 but an SDK XML file of version 4 was encountered. This can happen if you use versions of Android Studio and the command-line tools that were released at different times.
[=====] 100% Computing updates...
All SDK package licenses accepted.

C:\Users\vladi>
```

Создаем новый проект

New Project

Project name:

flutter_pw1

Project location:

~\StudioProjects\flutter_pw1

...

Description:

A new Flutter project.

Project type:

Application

Organization:

com.example

Android language:

☐ Java
☒ Kotlin

Platforms:

☒ Android
☒ iOS
☒ Linux
☒ MacOS
☒ Web
☒ Windows

When created, the new project will run on the selected platforms (others can be added later).

☐ Create project offline
